EXAMINER'S AMENDMENT

1. Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Applicant did not distinctly and specifically point out the supposed errors in the restriction requirements, therefore the elections have been treated as elections without traverse (MPEP § 818.03(a)). Since, this application is in condition for allowance except for the presence of claims 7-14 that were non-elected, claims 7-14 have been cancelled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

In regards to claim 1, the prior art fails to disclose the following: a) a sensor electrode which detects physical motion of the movable portion, a sensor circuit which generates a second electrical signal corresponding to physical motion of the movable portion on the basis of a signal from the sensor electrode; and b) wherein the driving circuit, the sensor circuit, the memory, and the processor are constituted part of the integrated circuit.

Drawings

3. Figure 20 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: a) Hartwell et al. (U.S. Patent No. 6,504,385).
